

About IRINS

IRINS is developed by INFLIBNET Centre with support from the Government of India under the National Mission on Education through Information and Communication Technology (NME-ICT), which aims to improve access, quality, and collaboration in higher education through ICT-enabled initiatives. Offered as secure, scalable cloud-based Software-as-a-Service (SaaS) solutions, it requires no local installation, provides anywhere access, ensures automatic updates and maintenance, enables centralised and reliable research output management, and offers a cost-effective way for institutions to adopt national research networking and profiling services.

1,900+
Member
Institutions

2,76,000+
Experts

38,00,000+
Publications
As on February 2026

Key Features

- **Researcher Profiles:** Auto-generated, comprehensive researcher & faculty member profiles with publications, projects, patents, and achievements.
- **ORCID Integration:** Seamless sync with ORCID for accurate researcher identification.
- **Automated Publication Import:** Fetches data from Scopus, ORCID, CrossRef, and more.

- **Institutional Showcase:** Highlights the research output of departments and institutions.
- **Analytics & Reports:** Citation metrics, collaboration networks, and performance indicators.
- **Collaboration Discovery:** Identify experts and research partners within and across institutions.
- **Customizable Dashboard:** Institution-specific branding and reporting features.
- **National Initiatives Support:** Useful for NIRF, accreditation, and ranking requirements.
- **Centralized Research Repository:** Single platform for managing scholarly information.
- **Expert Discovery & Networking:** Quickly find subject experts and build research collaborations across institutions through advanced search and expertise mapping.

Why IRINS Matter

- Improve Research Visibility
- Build National Research Network
- Support Accreditation & Rankings
- Enable Data-Driven Decisions
- Empower Women Researchers

Benefits to Stakeholders

Researchers & Faculty Members

- Showcase publications, projects & achievements
- ORCID integration & global research identity
- Discover collaborators & experts
- Increase citations & academic impact

Institutions

- Complete institutional research profiling
- Ready reports for NAAC, NIRF, NBA
- Track faculty productivity & trends
- Enhance global reputation & outreach

Students & Scholars

- Find mentors & domain experts
- Learn research trends & topics
- Connect with national research network
- Career & collaboration opportunities

How to Join?

- Step-1** Submit an online instance request through your institution.
- Step-2** Nodal Officer submits faculty/ researcher data.
- Step-3** IRINS Team reviews and creates the instance.
- Step-4** Login details shared with Nodal Officer.
- Step-5** Faculty verify and update their profiles.

- Better Visibility
- Strong Collaboration
- Quality Research
- National Impact

Research Network

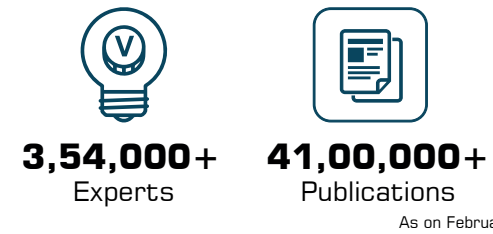

Expert Database of Indian Researchers

VIDWAN is a premier initiative of INFLIBNET Centre that provides a comprehensive national database of experts from academic and research institutions across India. It showcases researchers' profiles, expertise, publications, and achievements, enabling easy discovery of domain experts for collaboration, projects, committees, and policy initiatives.

Key Features

- National directory of subject experts
- Detailed researcher profiles & achievements
- Easy search by discipline, institution, or expertise
- Support for collaboration and networking
- Reliable expert pool for committees & funding agencies

- Discover Experts
- Build Collaborations
- Strengthen Research Network

SheRNI
She Research Network in India
Heroines of Research, Novation, and Intelligence

About SheRNI

SheRNI (She Research Network of India) is a national initiative of INFLIBNET Centre that showcases and connects women researchers across India through a comprehensive digital platform. It provides a dedicated space to highlight women scholars' achievements, expertise, publications, projects, and professional profiles, while promoting collaboration, mentoring, and leadership opportunities in research and academia.

Key Objectives

- Increase visibility of women researchers
- Build a national network for collaboration & mentoring
- Recognise research contributions of women scholars
- Support gender inclusion in the research ecosystem
- Provide reliable expert database for institutions & agencies

- Empower
- Connect
- Recognise
- Inspire

<https://sherni.inflibnet.ac.in>

LIB-VAHINI is an initiative of INFLIBNET Centre to create a national directory and professional network of Library & Information Science (LIS) professionals in India. It provides a unified platform to showcase expertise, experience, achievements, and contributions of librarians and information professionals across institutions. LIB-VAHINI promotes collaboration, knowledge sharing, professional recognition, and capacity building within the LIS community.

Key Objectives

- Build a national database of LIS professionals
- Highlight expertise, achievements, and skills
- Promote collaboration and knowledge exchange
- Support professional networking and mentoring
- Provide expert database for committees, projects, and training

- Connect
- Recognise
- Collaborate
- Grow
